Staff members: Martin Zvirbulis, John Bosler, Braden Yu

Members of the Public: None.

**Call to Order:** 4:30 p.m.

**Public Comment:** None

**Additions/Deletions to Agenda:** None

#### **I. Chino Basin Water Bank Update**

- Staff gave a verbal update to the committee regarding the latest developments on the Chino Basin Water Bank (CBWB).
- Since CVWD entered into this endeavor with Monte Vista Water District, the City of Ontario, and the Inland Empire Utilities Agency back in August 2016, the groups' consultant, Arcadis and their subconsultants, have conducted several workshops. Workshops have focused on educating the group and other interested potential stakeholders about the concept of a water bank; other working water banks; benefits of a water bank; and how it might work in the Chino Basin; among other topics.
- CVWD will continue to work conjunctively with the group of four to develop the water bank concept. All parties have agreed to continued cost-sharing for this effort, including additional funding as the project moves forward.

Meeting Adjourned at 4:50 p.m.
